

Your Global Provider for Animal Feed Solutions

TECHNICAL SUPPORT

Formulation support for all animal species. We can perform field trials, provide onsite visits and technical documentation for quality assurance's purposes.

LOGISTICS

Our in-house logistics Department holds 30+ years of experience in the forwarding business, assuring export process complies with destination country's regulations, while providing direct and reliable routes.

COMMERCIAL

Whether you are an End-user or a Distributor, we provide strategic market support, sourcing the right raw materials, at the right price.
